The Fred Hutchinson Cancer Research Center (Fred Hutch), the University of Washington (UW) and Seattle Children's Hospital (SCH) are jointly recruiting a full-time faculty member at the Assistant Professor or Associate Professor level without tenure due to funding (WOT), commensurate with experience and qualifications in the Clinical Research Division of the Fred Hutch and the Division of Pediatric Hematology/Oncology and Bone Marrow Transplantation, Department of Pediatrics at the UW. This position would have an annual service period of 12 months [July 1-June 30]. The primary appointment will be in the Clinical Research Division of Fred Hutch. The selected individual for the advertised position is expected to contribute to our mission of delivering outstanding clinical care and developing excellence in clinical research related to the field of hematopoietic cell transplantation. Specifically the individual in this position would be expected to have focused clinical research efforts in transplantation for non-malignant conditions, and contribute to the development of our clinical gene therapy program. Fred Hutch and University of Washington faculty engage in teaching, research, and service.

The Fred Hutch, home of three Nobel laureates, is an independent, nonprofit research institution dedicated to the development and advancement of biomedical research to eliminate cancer and other potentially fatal diseases. Recognized internationally for its pioneering work in bone-marrow transplantation and immunotherapy, Fred Hutch and the UW provide a unique environment for conducting translational research and clinical care. The Fred Hutch, in collaboration with its clinical and research partners, the University of Washington and Seattle Children's, is a National Cancer Institute-designated comprehensive cancer center.

At Fred Hutch, we believe that the innovation, collaboration, and rigor that result from diversity and inclusion are critical to our mission of eliminating cancer and related diseases. We seek employees who bring different and innovative ways of seeing the world and solving problems. Fred Hutch is in pursuit of becoming an antiracist organization. We are committed to ensuring that all candidates hired share our commitment to diversity, antiracism, and inclusion.

Qualifications

The ideal candidate should have a record of and primary interest in hematopoietic cell transplantation for non-malignant diseases and/or gene therapy as well as an active clinical research interest, as demonstrated by peer-reviewed publications, in the application of transplantation to the treatment of human disease.

Applicants must have an MD degree (or foreign equivalent) and US board certification in Pediatric Hematology/Oncology. In order to be eligible for University sponsorship for an H-1B visa, graduates of foreign (non-U.S.) medical schools must show successful completion of all three steps of the U.S. Medical Licensing Exam
