

Pediatric Transplantation &  
Cellular Therapy Consortium

**Faculty Position in Pediatric Bone Marrow Transplant and Cellular Therapy  
(Non-Malignant Focus)**

The Pediatric Bone Marrow Transplant and Cellular Therapeutics Program at the University of Colorado and Children's Hospital Colorado is recruiting a faculty member with a focus on non-malignant hematologic and immunologic diseases. We are seeking candidates at the mid-career level, though strong early-career applicants (Assistant Professor) with a clear track record in clinical or translational research will also be considered. The ideal candidate will have a focus on non-malignant hematologic and immunologic diseases as well as experience in the care of patients undergoing cell and gene therapies and a demonstrated commitment to academic medicine. The position is structured as 80% clinical and 20% research, with flexibility based on funding. This is a unique opportunity to join a nationally recognized, high-volume BMT-CT program that values innovation, team-based care, and academic excellence.

**To apply, please send a letter of interest and CV to:**
